

AZBILL BROTHERS LOSE APPEAL IN SUPREME COURT

MEN CHARGED WITH KILLING MAN IN COCONINO COUNTY MUST PAY PENALTY SAYS HIGHEST TRIBUNAL IN STATE.

(From Friday's Daily.)

The Supreme court has affirmed the judgment of the Superior court of Coconino county convicting Willis and Henry Azbill of the murder of Henry C. Thomas, for which they were sentenced to be hanged before the enactment of the law abolishing capital punishment.

Thomas was a young man of Cleveland, Ohio, the son of wealthy parents who had come to Arizona for his health. After spending some time in Phoenix he set out for an overland tour of the State, employing the Azbills to accompany him as guides and assistants. The party was seen at various points along the road but the Azbills returned to Phoenix without Thomas. In the course of time inquiry was made concerning him but for a long time nothing could be learned of his whereabouts. Some weeks after the body was found in a reservoir in Coconino county and in one way and another was identified as that of Thomas and the Azbills were arrested and tried.

The Azbill brothers were traced through Yavapai county by the officers after they were suspected of killing Thomas, and it is said that the party had passed through Prescott and remained here for a day or so just a few days before the date of the killing. Willis was captured after an exciting chase down the Colorado river. He left Oatman and when he reached the river he launched a small boat and started for the Gulf. Sheriff Jack Lane of Mohave county learned that the fugitive had taken the river route, and spent Christmas day, 1915, traveling along the river bank. He overtook Azbill just before dark and brought him back to the Kingman jail.

Henry Azbill was arrested in Mohave county shortly after his team had fallen over a steep embankment on the Oatman-Kingman highway near Gold Road, the accident resulting in the killing of Mrs. Azbill.

CITIZENS REBEL AT ACTION OF HARRIS IN OUSTING BOARD

(From Friday's Daily.)

The Yavapai County Chamber of Commerce last night went on record in no uncertain terms as being very much opposed to the recent action of the provost marshal general in dismissing Mayor Harry Heap and Dr. J. W. Flinn from the local exemption board. Resolutions setting forth the attitude of the organization on the matter were drawn up and a copy of the same will be forwarded to all three of the Arizona members of congress, Provost Marshal General Crowder and Adjutant General Harris of Phoenix, the latter being the official responsible for the summary dismissal of Messrs. Heap and Flinn.

The matter was brought to the attention of the body by Attorney E. S. Clark, who not only prepared and presented the resolutions but had gone into the matter quite thoroughly in a report which was attached to the resolutions and which covered 13 pages of typewritten manuscript. The report was read to last night's gathering, and the speaker explained that this had been prepared to accompany the resolutions for the enlightenment of the persons addressed, the document being a clear and concise presentation of the case from the viewpoint of the dismissed members and embodying all of the points which these gentlemen would have brought out had they been given the courtesy of an official hearing before being ousted.

Following the reading of the resolutions, a number of the leading citizens made short talks expressing their indignation at the war department's treatment of their fellow townsmen who had worked long and hard for the success of the draft. It was the unanimous opinion of those present that the matter should be presented to the Washington officials along with the demand for the reinstatement of the deposed members.

The full text of the resolutions adopted last night is as follows: "WHEREAS, H. W. Heap and Dr. J. W. Flinn, until recently members of the Yavapai county Exemption board, have been summarily dismissed from said board at the instance of Chas. W. Harris, adjutant general of Arizona, without explanation or opportunity of being heard; and

"WHEREAS, Messrs. Heap and Flinn have served on said board with high distinction, and have discharged the responsible duties of their office promptly, impartially, capably, and always with devoted patriotism and fidelity to the government of the United States, not only without pay, but at the sacrifice of their personal interests and considerable money expense; and

"WHEREAS, it appears that the differences between said board and the adjutant general were due to wrongful assumptions of authority by him, and to his unwarranted interference with the rightful exercise of the duties of said board; and

"WHEREAS, the members of said board, two or whom, Messrs. Heap and Flinn, were Republicans, and the third, Hon. Joseph F. Young, sheriff of Yavapai county, a Democrat, always acted unanimously respecting the differences with the adjutant gen-

eral, and without division of opinion as to his conduct; and

"WHEREAS, It is the belief of this organization that the dismissal of Messrs. Heap and Flinn, in itself highly unjust and unjustifiable, is rendered entirely indefensible by the discrimination above referred to, which, regrettably enough, seems to be based wholly on partisanship; now, therefore, be it

"RESOLVED, That the Yavapai County Chamber of Commerce hereby expresses its emphatic disapproval of the summary treatment accorded Messrs. Harry Heap and Dr. J. W. Flinn, and it protests against what seems to be the injection of partisan politics into one of the most essential arms of the national defense at a time when our country's existence is trembling in the balance, and be it further

"RESOLVED, That this body hereby affirms its confidence in the rectitude and legality of every official act of the Yavapai county board as constituted by Messrs. Heap, Flinn and Young, and its firm conviction that an impartial investigation, which in simple justice it trusts will be accorded, will completely overthrow the charges, whatever they may be, that have been preferred against them by the adjutant general; and be it further

"RESOLVED, That copies of this resolution, together with the statement of the case as it appears in the exhibit hereto attached, and for which ample verification is available, be forwarded to our senators and representatives in congress; to the provost marshal general, and to the adjutant general of Arizona."

MAJOR C. E. HOLMBERG, COMMANDANT OF POST, ARRIVES IN PRESCOTT

(From Friday's Daily.)

Major Carl Edward Holmberg, commanding officer who is to supervise the work incidental to the rehabilitation of Fort Whipple, arrived in Prescott yesterday afternoon, coming here from Ft. Bayard, N. M. He was accompanied by Mrs. Holmberg and expects to remain here permanently.

While it is not exactly known just when the actual work incident to the enlargement of the fort will begin, Major Holmberg stated last night to a Journal-Miner representative that within the next 30 or 60 days the old barracks should begin to take on signs of life. Accommodations will be prepared for about 1,000 patients, and it is estimated that about 1,000 other persons, consisting of officers, nurses, hospital attendants, orderlies, etc., will also be stationed at the post. Many of the men will bring their families with them and it is estimated that considerably more than 2,000 persons will be added to the city's population by the establishment of the big hospital.

An architect in the employ of the war department arrived here with Major Holmberg yesterday and today the latter will begin making the estimates as to just what sort of buildings will be required and how many of them will be needed to furnish the accommodations for the patients and the attendants. The present group of buildings, said Major Holmberg, is approximately about one-fourth of the number needed, the new buildings to be built something on the order of the structures now in use in the large cantonments.

Major Holmberg, who for many years has been connected with the medical corps of the army, had lately been stationed at the big sanitarium post at Ft. Bayard, N. M., and has had a great deal of experience in this class of work. He states that Ft. Bayard is filled to the overflowing, and that the government has directed that the rehabilitation of Whipple barracks be speeded up as much as possible. Since the building of the large army which Uncle Sam is now maintaining, the number of soldiers who need hospital care on account of incipient tuberculosis is increasing at a rapid rate, and the war department has authorized the construction of four other tubercular sanitariums besides Ft. Bayard, the four new ones being located at Prescott, Arizona, Denver, Colo., Asheville, N. C., and Otisville, N. Y. Work is being rushed on all of the posts except Prescott, and now that the war department has gotten around to it, the work here should be hurried up with dispatch. Whipple is designed to become perhaps the largest of all of the sanitariums, there being no question in the minds of the medical corps of the curative powers of the climate in this part of Arizona. It is understood that about 29 physicians will be stationed at the local post, and about 400 hospital attendants. Lieutenant Yeager, who came here several weeks ago to take command of the post, will in all probability be stationed here permanently as an aide to Major Holmberg. Yeager also having had much experience in work of the sort which will be necessary at the sanitarium.

As the post buildings at the present time are absolutely bare of all furniture, fixtures, etc., large shipments of this class of material as well as food supplies, bedding, medicines, etc., will be necessary, and Major Holmberg believes that the shipments will start for Prescott within a few weeks. While the bulk of the supplies will of necessity have to come from the department supply depots, a large amount of the commodities used out at the post will be purchased in Prescott, and the commercial benefits derived from the establishment of the sanitarium in this city will be large and varied. Not only will the city's population be boosted by more than 2,000 people, but the fame of the local climatic conditions will be heralded far and wide, from Vancouver to Vera Cruz, and the good which the city will reap from this sort of publicity is something which is not to be discounted.

Major Holmberg and his accomplished wife will be guests at the Congress until such time as the commandant's residence at the post is put into suitable shape for their occupancy.

\$44,000 WORTH OF BONDS SOLD BY WOMEN

COMPLETE RETURNS FROM COMMITTEES IN CHARGE OF SALE OF LIBERTY SECURITIES SHOW MUCH INTENSIVE WORK DONE

(From Friday's Daily.)

The final report of the women's Liberty Loan committee shows that there were sold through the work of the women in Yavapai county 492 individual bonds, aggregating a sum of \$44,000. This is a splendid record in view of the fact that the women did not solicit subscriptions in the business districts of the county, but merely obtained these by a house to house canvass. In addition to the list printed in The Journal-Miner last Sunday, Mrs. J. P. Trebilcock of Hendrietta turned in a report of fourteen individual bonds, amounting to \$1,250.

At Jerome Junction, Mrs. E. A. Blalock, the postmistress, who had charge of the women's committee, made a splendid showing. She requested every one who came into the postoffice to either buy a Liberty Bond or Baby Bonds. She stated that sometimes she was only able to get one meeting was recently held, at which P. W. O'Sullivan gave a rousing talk. This talk evidently did considerable good for five or six ranchers who had previously stated to the committee that it would be impossible for them to purchase bonds, changed their minds and each purchased a \$100 bond. Mrs. Blalock made a house to house canvass of every farmer on the project and in this work was assisted by Mr. Wilcox, the new director of the experiment station.

The men at the junction depot have all bought bonds through the Santa Fe railroad. On Thrift Stamp day over \$50 worth of war savings stamps were sold. The teachers have assisted in this work and at the school an honor roll is kept and every child is taking out all the stamps possible. There are 60 pupils in the school and they have taken out over \$700 in Baby Bonds and Liberty Bonds.

A branch of the Prescott Chapter of the Red Cross has just been organized with a membership of 50. It is expected that by the end of this week the membership will total 75. Mrs. Blalock sent in 11 individual subscriptions, while the total from the Harvey ranch was \$1,100. Personal applications sent in direct amounted to \$650, and the men employed at the U. V. P. and Santa Fe depot took over \$2500 worth of Liberty Bonds.

U. V. PAYS \$4,000 FOR DEATH OF O'DRISCOLL

(From Friday's Daily.)

Superior Judge Sweeney yesterday issued an order directing the Commercial Trust of Savings Bank, administrator of the estate of the late William O'Driscoll, to accept the sum of \$4,000 from the United Verde Copper Company as full settlement of the death claim, O'Driscoll having been killed in the workings of the United Verde.

A lunacy commission, under the direction of the Superior court, met in the St. Michael hotel yesterday afternoon to inquire into the mental condition of Mrs. Maria Baker, an aged lady who has been a resident of Seligman for some time. The commission found the old lady to be mildly insane and recommended that she be sent to the asylum for treatment. The patient was laboring under the delusion that she was cold all the time, and at every opportunity she would secure matches and build a fire where she desired, and it is said that on several occasions she would have caused the destruction of her dwelling place had not her friends happened in and put out the fire.

Mrs. Mary S. Britt was yesterday afternoon granted a divorce from Henry Britt, the decree having been issued by Judge Sweeney after it was shown that the husband and wife stood but a small chance of ever living together in peace and quietude. Mrs. Britt charged Mr. Britt with cruelty, and told the court of how their domestic felicity was marred by frequent quarrels and fights. One morning she said that she had neglected to get up and fry the eggs and make the coffee for hubby, and the latter had become peeved and struck her. "You'd better not hit me again," the lady told her husband. "All right," the latter is said to have responded, "I'll never hit you again because I am going so far away that you will never hear of me again." And with that, Mr. Britt left the house and did not come back any more.

JOINS ARMY TO ESCAPE WHITE SLAVE CHARGE

(From Friday's Daily.)

Harry Stoner, the Jerome I. W. W. adherent who was arrested in that camp several days ago on a charge of white slavery, was brought to Prescott last night by U. S. Marshal Harry Carlson and lodged in the county jail. This afternoon Stoner will be inducted into the ranks of the army and will leave for the camp with the Yavapai contingent. Stoner had been living at Jerome with a girl named Hilda Thompson, the woman being under the impression that she was the lawful wife of the man. The officers learned that Stoner had a wife and child back in Michigan, and at once caused his arrest. He had married Miss Thompson, who is a married Mrs. Thompson, but because he was already married at the time,

his ceremony with Miss Thompson of course was illegal.

Following the man's arrest, it was learned that he was a slacker as well as a bigamist and a Wobbly. Because of the fact that the war department had first call on him by virtue of his being a slacker, the charge of white slavery could not be pressed against him, and it was decided to ship him with the contingent which leaves Prescott tonight. Stoner had about \$400 in cash at the time of his arrest, and this sum he agreed to turn over to the girl who had believed herself to be his wife. The woman was much distressed at the unfortunate termination of her love affair, but consented to return to her mother in Idaho when she learned that the jig was up with Harry. Carlson purchased her a ticket to Mullen, and following a tear-stained farewell with her lover at the county jail, she departed on the 11:18 train going north last night.

YAVAPAI IN LINE FOR MINERAL RENOWN

(From Saturday's Daily.)

J. E. Warrens, who with L. P. Helmer has been developing a vanadium property near Kirkland, is in the city and states he and associates have been advised from Washington that government alchemists have analyzed the product and find that it carries an uranium content. Earnest inquiries are also made of these owners as to what shipments have been made and what market has been given.

This authentic information has proved surprising to Mr. Warrens, who stated yesterday that this news has somewhat enlivened interest in his holdings, as uranium is a companion metal to vanadium, and the former abounds invariably as a base to the latter. Eliminating the radium feature, uranium has a high market value, and is used extensively in the arts and sciences, there being no limit to the demand. This revelation coming at this time has prompted the above two owners to prepare for an extensive system of development, and incorporation is to be the first move. A close company will be formed, and machinery is to be installed at once. Development to date is a 50-foot shaft, and cross cutting. Mr. Warrens states, exposes a large dyke. As to what percentage of vanadium is carried, or what is the exact status of the uranium content, will not be definitely ascertained until an analysis is given. Mr. Warrens is preparing to leave for the east to arrange for large operations and also will take to Washington a large shipment of the ore just as it was mined and without assorting.

SOLDIERS ENJOY BAN- QUET AT YAVAPAI CLUB

(From Saturday's Daily.)

The contingent of draft boys which departed last night for Ft. McDowell, California, was the guests of the soldiers' welfare committee an enjoyable dinner given at the Yavapai club at 5:30 o'clock, the soldier lads being feasted and having the opportunity to listen to a number of speeches which had been arranged for the occasion. Besides the speechmaking, the rag-time piano playing of Mike Sidell was one of the most enjoyable features of the affair, Mike playing a large part of his jazz repertoire while the banquet was in progress. Besides the soldiers themselves, the members of the newly-formed draft board were present, as were Attorneys P. W. O'Sullivan and Norris, Col. Holmberg, commandant at Ft. Whipple, Lieut. Yeager, Don MacIver and several other guests of the committee.

Judge Norris acted as toastmaster. He delivered a short address to the boys, and Mr. O'Sullivan also made a few remarks. MacIver told the lads a number of stories which made about the biggest hit of the affair, and all of them were put in a thoroughly good humor by the remarks of this gifted entertainer.

Major Holmberg gave the boys a talk on army matters and advised them to carry out the instructions of their officers right to the letter in spite of the fact that the orders sometimes seemed rather trivial and useless.

Following the ending of the banquet, the boys and their guests went directly to the Elks' theatre, where the program had been arranged in their honor.

DESERT COPPER IS IN SHIPPING CLASS

(From Friday's Daily.)

C. P. Ford, one of the best known mining operators of this field, has returned from his copper holdings near Vicksburg, on the A. & C. railroad, and is en route to the Bradshaws where he will again begin operating his gold group for the summer.

His copper interests, he states, are in fine shape after several years of development, the tonnage ready justifies shipping and he is arranging for an immediate market. During the summer months climatic conditions at his Vicksburg camp will not permit of maintaining a camp, but he proposes, however, to dispose of the output as soon as possible.

Mr. Ford has for many years alternately worked his properties, the gold in the Bradshaws during the summer and the copper on the desert during winter. He expressed himself as satisfied with his operations, and particularly with what had been accomplished during the past four months at the Vicksburg camp.

MORE MONEY IS NEEDED FOR THE WAR PROGRAM

WASHINGTON, May 9.—Congressional leaders were advised by Secretary McAdoo that legislation at this session of congress is imperative to raise revenue to meet the unexpected increases in expenses incident to the vast expansion of the war program. The situation may result in the abandoning of the plan for adjournment until fall. Representative Kitchin said if additional taxes were decided on the levy of the last tax would probably be doubled.

THESE MEN GO TO CAMP ON MAY 25TH

(From Friday's Daily.)

The local exemption board yesterday issued a list containing the names of the registrants who have been called on to report for entrainment on Saturday, May 25th, this contingent to be the largest one which has so far left the county and will also represent the last of the Class I-A men which the county can muster.

To the list printed below will be added the names of such men as have been called to report this afternoon for entrainment and who are not used at that time. In other words, after the contingent goes forward on May 25th, none of the men in the first class will have been left behind. The men listed below will go to Camp Cody at Deming, N. M., this being the first Arizona contingent to be routed to that point. The quota which the county is expected to send at this time would consist of 219 men, but owing to the fact that there are only 176 men listed below, and the further fact that all of the number listed cannot be reached by the board's notification, it is quite evident that the county cannot muster the required 219 by May 25th, and that unless the county is given credit for a number of men who have been sent to camp over and above the number actually required in other contingents, Yavapai will not be able to deliver 100 per cent of the men called for.

The exact hour of entrainment has not been announced, but it is presumed that the boys will go north on the 11:18 p. m. train as all of the other contingents have done. The men called for the 25th are the following named:

BIG PINE DIRECTORS PLEASED WITH RESULTS

(From Thursday's Daily.)

After two weeks spent in examination of the Big Pine mine in the Senator district, the directors are in Prescott and will return to their homes in Michigan today. They return via Jerome which most of them are visiting for the first time. The party consists of Andrew Bjorkman, Iron Mountain, Mich.; Andrew Bergquist, A. Hagberg and Andrew Borgstrom of Duluth, Minn., and C. E. Laurence, Palatka, Mich. They express themselves as greatly pleased with the development of the last year and particularly with the ore opened up by the latest workings. C. H. Dunning, the general manager of the company, is praised highly for the efficient way in which the affairs of the mine have been handled.

The directors of the company announce that the property is fully financed. The heavy cost of replacing the mill which was recently destroyed by fire was met by the directors personally, and not by the sale of stock. The new mill is almost completed and Manager Dunning expects to have it running in full blast by the fifteenth of this month.

RIO TINTO MANAGER REPORTS MINING ACTIVITY

(From Thursday's Daily.)

W. D. Mahoney was in Prescott yesterday on his way to Phoenix on business connected with the Rio Tinto mine near Stoddard of which he is the general manager. He reports that the company has finished the road connecting their property with the county road and have begun the sinking of a winze in their lower tunnel. The work now being done is wholly of an exploratory nature. The management wishes to make sure of the best location for their permanent main shaft. The present workings have established considerable desirable high grade copper ore.

Mr. Mahoney states that the whole Copper Mountain section is busy now. On the Stoddard mine, which the Rio Tinto adjoins, contractors are sinking the shaft to a depth of 600 feet. The shaft is now down about 200 feet. The Big Bug has two men at work. The Half Moon is being bid for by the same parties who financed the Arizona Copper Company, which recently made its big strike and the district expects to see this promising property opened up in a thorough and complete manner.

Journal-Miner for fine job work.

CAPACITY HOUSE AT TROOPERS' FAREWELL

ELKS THEATRE IS PACKED AS HUGE THROGGS TURN OUT TO ENJOY SHOW STAGED FOR THE DEPARTING ROOKIES.

(From Saturday's Daily.)

As many persons as could find seats or standing room in the Elks theatre were present last night to enjoy the bill which had been arranged as a part of the city's farewell exercises in honor of the lads who left for Ft. McDowell, the entrainment having been in many ways one of the snappiest and most unusual ones ever presented in Prescott. The singing of Private Carl Goetz's song, "When You Come Back, My Soldier Boy," was probably the headline event on the program, this number having been reserved until the close of the long entertainment. The number was put across the footlights by Miss Babe Morrison and a chorus of handsomely-gowned young women, all of whom knew how to sing as well as they knew how to present a stunning appearance beneath the sizzling rays of the glaring spot light. The song had a swing to it, and was one of those teasing melodies which caused the male portion of the audience to leave the house whistling the haunting strains, just like the crowd does when it leaves the theatres in the big-time towns where Al Jolson or Sophie Tucker or Irene Franklin have just appeared and put over one of the popular jazz numbers of the moment. The young women who assisted Miss Morrison in getting the song over into the audience in the somewhat unusual fashion in which it was rendered, were the following-named: Garnet Simms, Anna Chalk, Irma Romber, Ida Richeling, Alice Lord, Lillas Lord, Esther Ross, Millie Marks, Melita Merritt, Gladys Fox and Mary Coleman.

Another number which was particularly to those who appreciate classical vocal work was that rendered by Mrs. Brownell of Humboldt, who sang, "Maid of Orleans," in such a pleasing fashion that she was compelled to respond to two encores. At the close of the lady's initial offering, the lights suddenly went out, leaving the theatre in inky darkness. Mrs. Brownell, however, was quick to rise to the occasion, and in the darkness, took the piano, played her own accompaniment and sang another little vocal number which kept the audience in good humor in spite of the stygian darkness.

Don Maylver, the well known mining man, who before his entrance into the mining game, used to appear on the vaudeville stages with a number of magic acts, and who is to leave this evening on the first lap of his journey to France, occupied the stage for about 20 minutes entertaining the big crowd with several novel stunts which left the major portion of the house guessing how he did it. MacIver is to make the trip to the camp for the purpose of entertaining the men on the battle front with his acts of mystery.

Two of the boys in the contingent appeared on the stage and helped in the
